

Santa Cruz County Medical Society

Advocating for Patients and Physicians

Community Health Care Lyceum

Venue Information Form

The Santa Cruz County Medical Society members are actively involved in serving their community with the following SCCMS Mission Statement as their guideline:

*We pledge to promote the professional practice of medicine, excellent patient care, public health and the education and well being of patients and physicians.
We believe that the patient physician relationship is vital in the healing process;
the continual improvement of this relationship will be our guide.*

One of the ways to accomplish the SCCMS mission is offering free interactive talks, lectures, discussion groups, seminars and public forums. If you are interested in what the physicians in the Santa Cruz County Medical Society have to offer, please fill out this form and return via fax or mail.
